External Simple Results Across Runs

Run	Method	Complexity	E2E	PFS	MFS@4
Run 1	**Incremental**	Simple	90.0%	3.50	60.0%
Run 1	**MetaGPT**	Simple	20.0%	0.30	0.0%
Run 2	**Incremental**	Simple	100.0%	3.60	50.0%
Run 2	**MetaGPT**	Simple	30.0%	0.90	20.0%
Run 3	**Incremental**	Simple	90.0%	3.00	40.0%
Run 3	**MetaGPT**	Simple	10.0%	0.40	10.0%
Combined	**Incremental**	Simple	93.3%	3.37	50.0%
Combined	**MetaGPT**	Simple	20.0%	0.53	10.0%

All rows use the same 10 matched Simple tasks; each task has one assessed module per run. Combined values, when present, pool the selected 3 runs within tasks before averaging tasks.
E2E requires both the front end and back end to pass build/compilation and startup checks; it does not imply complete business functionality.
